

Inflatable PFD Clinic

Sunday April 28, 2019 2pm - 5pm

Come join Phil Pollard and Nick Fugate of Crowley's Yacht Yard as they host a PFD Clinic on Sunday April 28, from 2pm to 5pm, at the Chicago Corinthian Yacht Club.

We invite all Chicago area boaters to please bring their life jacket(s) to learn valuable hands-on skills on how to properly care for your PFD.

Phil and Nick will cover how to repack your pfd, change a cartridge, maintain them, when that maintenance should be done, get product recall updates and get information about when a life jacket needs to be replaced.

Industry experts from Crowley's, Mustang, Spinlock and Crewsaver will also be present during this seminar to answer your questions.

Crowley's will have a small stock of retail items available to provide you with the opportunity to purchase new vests, re-arm kits, and accessories.

There is no cost to attend the event. The only cost to you would be a re-arm kit should you decide you want to inflate your pfd before repacking it.

The clinic size is limited to 50 persons, and will be offered via RSVP only. Please RSVP to Chris Garbacz (please include PFD Clinic in subject line) at:
